ABOUT THE CONFERENCE

Swedish Microwave Days is Sweden's largest conference in microwave electronics, antennas and electromagnetics, bringing together researchers, engineers and students from academia, industry and research institutes.

The conference combines the **GigaHertz Symposium** (microwave science and technology) and **AntennEMB Symposium** (antennas and computational electromagnetics), with keynotes, an industrial exhibition and early-career activities.

We invite abstracts of up to two pages featuring technical results or broader overviews from academia and industry.

TOPICS

01 Semiconductor devices and integrated circuits for high frequencies
02 Passive and active components, packaging and integration
03 Antennas, arrays and antenna measurement
04 Computational electromagnetics
05 Terahertz technology and instrumentation
06 Radar and sensing
07 Wireless communication systems
08 Propagation and channel modelling
09 Electromagnetic compatibility
10 Biomedical and industrial applications
11 Space, satellite and radio astronomy applications
12 Microwave components and systems for quantum technology
13 Emerging microwave applications
14 AI-Assisted Microwave and Antenna Engineering

CONFIRMED CONFERENCE PARTNERS

PLATINUM

SAAB · ERICSSON · MITSUBISHI ELECTRIC

GOLD

SILVER

COMSOL · AMTELE · CellMax · Signal Solutions

SUPPORTING ORGANISATIONS

Smartare Elektroniksystem — Electronic Components & Systems · The National Committee for Radio Science — The Royal Swedish Academy of Sciences · EuMA — European Microwave Association · EurAAP
