

NCGE 2027

Preliminary Scientific Programme

The Nordic approach to future surgery

Thursday, May 20th

08:00-18:00	Registration
08:00-08:10	Welcome and Opening Ceremony Presidential welcome:
08:15-9:45	<i>Endometriosis</i>
08:15-8:45	<i>The treatment of endometriosis – is there still a need for surgery? Future aspects of medication Future need for surgery?</i>
08:45-8:55	<i>Discussion</i>
08:55-9:10	<i>Identification of endometriosis using gene technology.</i>
09:10-9:25	<i>New option for early testing for endometriosis.</i>
09:25-9:45	<i>Superficial endometriosis. How to detect and implications.</i>
09:45-10:30	Coffee break
10:30-11:00	Sponsored symposium
11:00-12:30	<i>Endometriosis surgery – pushing the frontiers</i>
11:00-11:30	<i>Surgical management of endometriosis.</i>
11:30-11:50	<i>Ureterolysis in endometriosis.</i>
11:50-12:10	<i>Endometrioma – current treatment modalities.</i>
12:10- 12:30	<i>ICG and AI assisted gynecological surgery.</i>
12:30-13:30	Lunch
13:30-14:00	Sponsored symposium
14:00-15:15	<i>Fibroids</i>
14:00-15:00	<i>Minimal invasive treatment of fibroids: Short introduction (15 min) from each speaker regarding efficacy, complications, impact on fertility Surgery - hysteroscopy. Surgery - laparoscopy/robotic Microwave ablation/Radiofrequency ablation. HIFU treatment</i>
15:00-15:15	<i>Discussion</i>
15:15-15:45	Coffee break
15:45-16:15	Education
15:30-15:45	<i>Early robotic training.</i>
15:45-16:00	<i>OR Black box capturing the surgical experience.</i>
16:00-16:15	<i>The future of telesurgery in gynecology</i>
17:30-19:30	Get together

NCGE 2027

Preliminary Scientific Programme *The Nordic approach to future surgery*

Friday, May 21th

08:00 - 18:00	Registration
07:30-8:15	Fight for your life -run.
08:30-9:00	Sponsored symposium
09:00-10:00	<i>Isthmocele</i>
09:00-9:20	<i>Isthmocele –hysteroscopic approach.</i>
09:20-9:40	<i>Surgical technique for laparoscopic niche repair.</i>
09:40-10:00	<i>Reproductive outcome following Isthmocele repair.</i>
10:00-10:30	Coffee break
10:30-12:00	Intrauterine surgery: Hot topic
10:30-11:00	<i>Hysteroscopy in premenopausal women. Hysteroscopy in postmenopausal women.</i>
11:00-10:10	<i>Discussion</i>
10:10-11:30	<i>Endometrial ablation/resection technique and complications.</i>
11:30-11:50	<i>Intrauterine adhesion – how to treat.</i>
11:50-12:10	<i>Placental residual following pregnancy.</i>
12:10-12:40	Symposium
12:40-13:40	Lunch
13:40- 14:40	How to improve your surgical skills
13:40-14:00	<i>Hysterectomy – the best surgical technique.</i>
14:00-14:20	<i>Tips and tricks in case of a big uterus – morcellation – in bag procedures.</i>
14:20-14:40	<i>The best way to protect ovarian tissue in case of ovarian cyst.</i>
14:40-15:10	Coffee
15:10-16:10	Vaginal vault repair
15:10-15:30	<i>The optimal surgical procedure for vaginal vault prolapse.</i>
15:30-15:50	<i>Apical robotic/laparoscopic repair.</i>
15:50-16:10	<i>Laparoscopic Mesh removal – tips and tricks.</i>
19:00	Dinner

NCGE 2027

Preliminary Scientific Programme *The Nordic approach to future surgery*

Saturday, May 22th

08:30-9:15	NSGE General Assembly
09:30-9:45	Presidential Address
09:45-10:45	
09:45-10:45	<i>Educational Video presentation (case presentation and video 4 min) 7 min to each followed by 3 min discussion Isthmocele Salpingotomi Hysteroscopy – septum resection. Hysteroscopy type 2 myoma. Peritoneal resection Cerclage.</i>
10:45-11:15	Coffee break
11:15-12:15	Reproductive surgery
11:15-11:35	<i>How to preserve fertility in case of adnexal mass not endometriosis.</i>
11:35-11:55	<i>Uterine malformation. How to treat in relation to infertility.</i>
11:55	Closing Ceremony Awarding the best abstract/movie/poster Next congress 2029
