O1	M7	Julia	Aulin	The association between sex and body size and stroke risk and survival in patients with atrial fibrillation – an analysis of 7:
O9	M1	Lisa	Bearpark	Survival after aortic valve surgery for prosthetic valve endocarditis: a SWEDEHEART study
O5	M7	Anna	Damlin	Percutaneous closure of patent foramen ovale after cryptogenic stroke – a comparison between patients younger and olde
O16	M6	Ola	Ekström	Proteomic Signatures of Cardiovascular Resilience in Long-standing Type 1 Diabetes
O15	M8	Sami	El Amrani	Automated medical history-based HEART score for one-year major adverse cardiovascular events after acute chest pain ev
O8	M1	Ayah	Fayad	Impact of Preoperative Pulmonary Artery Systolic Pressure on Outcomes After Mitral Valve Repair for Degenerative Mitral
O14	M8	Anton	Gard	Long-term antiplatelet treatment in type 2 myocardial infarction – a target trial emulation study
O17	M6	Emil	Hagström	Lipid management in high cardiovascular risk patients without prior myocardial infarction or stroke
O18	M6	Kristofer	Hedman	Reclassification of Physiological Risk Using the Updated European Respiratory Society and European Society of Thoracic Su
O21	M2	Katarina	Heimburg	Prevalence and severity of self-rated fatigue at 7 and 24 months and changes over time after survival from cardiac arrest
O2	M7	Mashroor	Khan	Opportunistic Versus Systematic Atrial Fibrillation Screening in Primary Care: Results From the STROKESTOP III Trial
O22	M2	Leonie	Klompstra	Understanding sexual health trajectories in patients with heart failure: A longitudinal analysis
O19	M6	Karolina	Kristenson	Sex Differences in Preoperative Functional Capacity and Postoperative Risk After Lung Cancer Surgery
O11	M8	Kristoffer	Landstedt	BLOOD PRESSURE FIVE YEARS AFTER RADIOFREQUENCY RENAL DENERVATION IN UNCONTROLLED HYPERTENSION: THE
O6	M1	Joel	Lenell	Long-term prognostic impact of one-year change in left ventricular function after a myocardial infarction: insights from th
O24	M2	Per	Lindmark	Increasing high-sensitivity cardiac troponin I levels are associated with coronary artery calcification: results from the pre-S
O10	M1	Emma	Löfgren	Mortality in Patients with Mild and Moderate Paravalvular Leakage after Transcatheter Aortic Valve Implantation
O7	M1	Thomas	Mellberg	Standardized, telemonitored titration of guideline-directed medical therapy in heart failure is associated with faster optim
O13	M8	Safi	Moayad Al-Azzawy	Prevalence and prognostic importance of chronic kidney disease in patients with coronary heart disease: Results from the
O12	M8	Christos	Pagonis	Prevalence and diagnostic trends of spontaneous coronary artery dissection (SCAD) in young women- a multicentre angiog
O4	M7	Ramin	Sahar	Descending Aortic Regurgitation Fraction as a Quantitative Hallmark of Severe Aortic Regurgitation
O20	M6	Jessica	Schubert	Magnitude of Triglyceride Reduction and Cardiovascular Outcomes After Myocardial Infarction: A SWEDEHEART Registry A
O25	M2	Sofia	Skröder	Bone Morphogenetic Protein 10 and One-Year Outcomes After Open Revascularization in Symptomatic Peripheral Arterial
O23	M2	Karin	Van Mossevelde	Left Atrial Strain and Stiffness in Patients with Early Onset Atrial Fibrillation: Evidence of Preserved Function Despite Struc
O3	M7	Ayşe-Gül	Öztürk	Magnetic resonance stress-perfusion comparison in patients with Fontan circulation of left- or right systemic ventricular n
